## Empire Thanksgiving Shoot.

James Wiggins, the Empire rustler has secured 250 turkeys, ducks geese, chickens and pigeons for a grand thanksgiving shoot and has placed the fee down to the lowest rates.

Turkeys, 200 yards, 50c a shot. Geese at the same rate. Chickens at a distance of 50 yards, shotguns being used, with nothing heavier than No. 6 shot, 25 cents a shot. Birds must be knocked prostrate. Parlor rifle shooting, 50 yards, at turkey's head, 25cents per shot.

The sport will be conducted on a square basis and judges will decide differences on the spot.

No one is barred from the contest and a special invitation is extended the Carson and Virginia sharpshooters.

In the evening a grand masquerade ball will be given in Wiggins' hall. Costumes can be secured in the ante-room of the hall and a line of new stables have been put up for visitors who come with horses. Mrs. Kohle, the caterer will spread a Thanksgiving turkey banquet during the dance and is located but a few steps from the pavilion.

## The Chicago Fair.

Are you going to the World's Fair? Everybody is going if able. And now everybody is able, because an incorporation has been formed in Chicago, composed of the leading citizens and most responsible men there, and they offer the most enticing inducements at the cheapest possible rates.

They sell a ticket for \$131, that absolutely covers everything, on the installment plan. This certificate entitles the holder to first class transportation to and from Chicago from Carson during the Fair, transportation to and from depot and hotels for self and baggage, six admissions to the Fair with your lunch on the grounds, fourth, first class board and lodging for six days in their own commodious hotels and lastly their competent guides will see that all holders are shown around and miss nothing. Think of the crowded condition of Chicago during the fair and then of the ease and comfort of this method.

Only \$131 for everything and that as follows: \$6 down at time of signing contract, balance in equal monthly installments from time of signing till April 1st, 1893.

It is a good bank company as holders may have their money back at any time, less the first six for expenses, etc. Certificates are transferable and non-forfeitable.

## THE DENVER CONFERENCE.

### It Declares for the White Metal.

The Denver Conference has decided in favor of bi-metalism.

The Committee on Resolutions appointed by the Mining Congress agreed upon their report, declaring that certificates of the Government backed dollar for dollar by gold or silver coin on deposit in the Treasury of the United States, is safe and sound currency and has been approved by the people.

That the first National Mining Congress is unalterably in favor of the principles of bi-metalism.

That gold and silver—not one to the exclusion of the other—are the money metals of the Constitution.

That gold and silver used for monetary purposes should have equal rights, and to that end it is demanded of the Congress of the United States, the enactment of laws by which silver shall be coined free in all mints equally with gold, and to have with it full and unrestricted monetary power, and that they may be in ratio of 16 to 1, and when coinage is represented by treasury notes each dollar shall represent 412 1-2 of standard silver or 25.8 grains gold.

At the Mining Congress R. C. Powers of Arizona, an avowed advocate of free coinage, occupied an hour in discussing the use of silver from the earliest days of the world's history to the present time.

E. R. Brown of Aspen said America should declare for the parity of metals. At this juncture Senator Stewart arose and announced that he did not own one share of Comstock stock, thus refuting an old allegation.

Judge Harley Morse of Colorado spoke for twenty minutes in favor of free coinage.

Martin Maginnis of Montana denounced Campbell in a scathing manner for his cowardice in not advocating the platform upon which he was nominated.

Congressman G. W. Cassidy of Nevada declared that every man, woman and child in Nevada were united in favor of free and unlimited coinage. Cassidy advocated the forcing of the political parties to make that question the dominant issue in the next campaign.

### A Judge With Backbone.

Some months ago the brutal murder of a Chinaman took place at Bridgeport, Mono county Cal., and the officers of law made no attempt to punish the crime.

A few days ago Judge Virden charged the Grand Jury to investigate the matter impartially and closed the charge as follows:

"In this connection it has been asserted and published broadcast throughout the State that officers of this county and of this court present in Bridgeport at the time refused or neglected to perform their sworn duty as peace officers, reflecting not only deeply upon such officers, but casting a shadow of disgrace upon the court itself. This also demands your serious consideration, for if they are innocent they should be exonerated, and if they have been guilty of wilful and corrupt conduct in office, it will be your duty to so find."

"It has been publicly charged that attorneys, also officers of this court have unlawfully embezzled a part or portion of the property of the deceased, Ah Quong Tia. This also demands at your hands a careful investigation, for if the officers of the highest court of justice within your county are wilfully corrupt and are let go unpunished, to whom can the people of the county and State look for an honest exposition of the laws and justice?"

Judge Virden evidently proposed to show the people of Bridgeport that there is still some law left in Mono.

The feeling at Pomona against P. C. Tonner, who claims a large part of the Palamores tract of land, has not quieted, and he and Dr. Nichols who purchased from Tonner, are under the ban among the citizens and may have to reside elsewhere, unless the matter is early settled.

The Fresno Expositor has the following: Fresno's vast iron mines can be opened when the mountain road is completed. The new process of Edisons of reducing the ore by electricity will solve the problem of fuel and the unlimited water-power of the San Jauquin will generate the electricity.

Judge Virden, in his charge to the Grand Jury of Mono county, sitting at Bridgeport, called attention to the murder of Indian Tom, and the subsequent summary execution of Ah Quong Tia by the Indians, and requested that the charges against the police officers and court officials be thoroughly investigated.

The San Bernardino Times-Index says: From a gentleman who has just returned from Salton we learn that the lake is going down very rapidly being only about three feet deep in the deepest place. The lake is divided into two parts, a bar having been formed between the two. The lake is now about twenty-five miles long and seven miles wide. The salt company will commence work about Dec. 1st.

Several weeks ago we reprinted an excellent article on creameries from the Carson APPEAL, giving due credit, therefore as we always endeavor to do when taking our neighbors' good things. A few days ago we found a part of this same article in the Virginia Enterprise, duly credited to the White Pine News. Funny, isn't it, Sam?—Inyo Index.

This sort of thing has been going on so long that we have ceased to notice it.

## There is no Secret

About your buying shoes to advantage. You may not know any more about the quality of leather than you do about a lost comet but that is no reason why you should get "stuck." Either you get your money's worth or you don't and if you don't is is your own fault. We are in the shoe business because we happen to know something about shoes and leather. It is "bread and butter" to us, therefore we make it a STUDY. Of the knowledge you get as much benefit as though you possessed it yourself for we place it entirely in your disposal and if you think that other houses can quote lower prices than we do, come and look at the goods and and prices. We will put our time against yours and we feel confident that the result will be a mutual benefit.
